

UPS Mail Innovations®

***Looking to get first-class service for less?
Problem solved.***

UPS brings the same efficiency and expertise you rely on for package delivery to expedited mail processing — and we do it for less. Think of it as an upgrade for your mail.

UPS Mail Innovations offers an economical postal channel solution that gives you access to infrastructure, technology and global reach for easier and more efficient mail management. We can significantly reduce processing costs to all U.S. mailing addresses, yet maintain delivery times comparable to First-Class Mail.

From pickup to processing to induction into the postal system for final mile delivery, UPS Mail Innovations can reduce costs, including postage, labor, supplies and equipment.

It's one more way we make your world work better.

You don't have to sacrifice speed for economy. We can help.

Improving on the postal process

Through our partnership with the United States Postal Service (USPS) and our Automated Processing Systems, we can offer better postal rates, reduced handling, expedited preparation and improved accuracy.

Here's how we do it:

- Package-handling equipment across the network to accommodate a variety of mail classes
- Flexible pickup schedules to accommodate customer requirements and volume needs
- Automated one-stop processing including address validation
- Induction into USPS facilities within 24 hours locally and 48 hours nationally
- Secure proprietary processing with 24/7 in-house technical support

More visibility, more productivity

Full package tracking detail for up-to-date status within the UPS Mail Innovations and USPS networks at ups.com.
