

# Simplify Your International Supply Chain with the World Ease<sup>®</sup> Service

The **World Ease<sup>®</sup>** service allows customers to ship cross-border international packages to multiple recipients within the same country\* as a consolidated shipment. The consolidated shipment moves and clears customs as one transaction and is then split for delivery in the destination country.

It simplifies your supply chain to reduce customs clearance and logistics costs, enhances cross-border shipping processes and supports a premium customer experience.

\*Shipments from non-European Union countries to multiple countries in the European Union (EU) are eligible

## The benefits of the World Ease® service allows you to...

### Simplify your supply chain resulting in...
